This unique Bavaria 300 is build a solid construction period and is also very well maintained. In 1991 was the first launch in the water. The teak deck is from 2008 and in very good condition. The heating and the batteries have recently been renewed. The rigging has been replaced in 2013. This Bavaria has seaworthy sailing characteristics. The roller mainsail is rolled up in the boom. This allows the ship to sail easily also with a small crew. For more information or to make an appointment for a viewing, please contact European Yachting Network Yachtbroker Jacques van Severter at tel nr - Click here to reveal phone number -
