Engine/Fuel Type Diesel

Engine Hours 243

Engine 2

Engine Brand Caterpillar

Year Built 2001

Engine Model 3126

Engine Type Inboard

Engine/Fuel Type Diesel

Engine Hours 243

Accommodations and Layout

?

The interior is quite attractive and open feeling, with great headroom and a teak and holly cabin sole. Forward, to port, is an offset double berth with a small seat to the right, storage drawers below and lockers above with vented doors.

Aft of the berth, to port, is the galley, followed by the private head with pull-around shower curtain, hand held shower and a rod storage rack. The galley includes a Norcold AC/DC refrigerator/freezer, Panasonic microwave oven, single burner electric cooktop, stainless steel sink and corian counter top.

Aft of the berth, to starboard, is a small hanging locker, followed by an L-shaped settee with table that converts to over-under berths. At the aft bulkhead, above the settee, is the well designed

circuit breaker panel, a flat panel TV and a Sony AM/FM/CD stereo system.

Electronics and Navigation

?
