Contact the owner at 516-840-1383 with any questions... American classic, beautifully maintained. Perfect for day-sailing and cruising Long Island Sound and beyond. The Pearson Wanderer is a relatively rare William Shaw design with a shoal keel – able to draw as little as 3ft. 6in. to explore shallow harbors, or as much as 6ft. 8in for steady handling under full sail. Cielo Azul is #13 of only 177 Wanderers ever produced. Atomic 4 Engine was completely rebuilt 4 years ago and starts and runs like a dream. Many original fittings and teak woodwork with updated electronics. Easy handling with Edson Helm (which will require planned service before launch – current owners will complete all work). Can be single handed, cruised as a couple, or great for sunset sails with up to 8. Sleeps up to 4, maybe more. Cielo Azul is currently at Oyster Bay Marine Center but also has a longtime mooring option at Hempstead Harbour Club in Glen Cove. Contact us to discuss sale or share!

Irish classic, beautifully maintained. Perfect for day-sailing and cruising Long Island Sound and beyond. The Pearson Wanderer is a relatively new William Shaw design with a dead-end keel - able to heel as little as 30° due, to explore shallow harbors, or as much as 90°. Six for steady handling under 4. Cielo Azul is #13 of only 177 Wanderers ever produced. Alford 4 Engine was completely rebuilt ago and starts and runs like a dream. Many original fittings and teak woodwork with uplaid teak. Easy handling with Ketchikan Hester jibs will require planned service before launch - course is well complete all work. Can be single handed, cruised as a couple, or great for sunset sails as it. Sleeps up to 4, maybe more. Cielo Azul is currently at Oyster Bay Marine Center but also has no mooring option at Hempstead Harbor Club in Glen Cove. Contact us for discuss sale or share!
